Wireless authentication for registered users	✓	✗
Voice controlled app	✓	✗
Automatic search of nearest available pole in app	✓	✗
Elegant design and high visibility	✓	✗

## We offer the 1-stop-shop including the necessary investment as differentiating value proposition

- If desired, we plan and built up a comprehensive network of city-wide charging infrastructure
- If needed, we bring the necessary funding to build up the poles and therewith reduce the invest needed for cities by 2-digit mEUR
- We offer a payment solution, customers service/helpline for charging at the poles
- If needed, we take care of installation and maintenance
